

ANNUAL INDEX OF AUTHORS

Vols. 23, 24

January–December 1981

Russian Toms 256–261

| | | |
|---------------------------------------------------------------------------------------------------------------------------------|----|-----|
| Abramov, Ju. Š. <i>Numerical ranges, zones and spectra of families of selfadjoint operators</i> | 23 | 384 |
| <i>On optimal plans for spectral optimization problems</i> | 24 | 625 |
| Abramov, S. A. <i>Remark on the method of intermediate assertions</i> | 24 | 91 |
| Agajanyan, S. M. <i>A non-Archimedean analogue of the Gel'fand-Raikov theorem</i> | 24 | 199 |
| Arapetjan, R. A. and Henkin, G. M. <i>Analytic continuation of CR-functions through the “edge of the wedge”</i> | 24 | 128 |
| Akbarov, M. K. <i>On mean square Fourier coefficients of cusp forms over arithmetic progressions</i> | 24 | 522 |
| Aliev, A. B. See Maksudov, F. G. | | |
| Aliev, B. A. See Jakubov, S. Ja. | | |
| Aliev, M. A. <i>On a difference method of solving a problem of Tricomi type for an equation of mixed type</i> | 23 | 610 |
| Andreev, A. E. <i>On irredundant and minimal tests</i> | 23 | 92 |
| Andrunakievič, A. V. (see also Andrunakievič, V. A.) | | |
| Andrunakievič, A. V. and Andrunakievič, V. A. <i>One-sided ideals and radicals of rings</i> | 24 | 1 |
| Andrunakievič, V. A. (see also Andrunakievič, A. V.) | | |
| Andrunakievič, V. A. and Andrunakievič, A. V. <i>Strictly modular ideals of a ring</i> | 23 | 203 |
| Aniskovič, E. M. <i>On subspaces of sequential spaces</i> | 24 | 202 |
| Antoncov, S. N. <i>On the localization of solutions of nonlinear degenerate elliptic and parabolic equations</i> | 24 | 420 |
| Antonevič, A. B. <i>Conditions for invertibility of operators with a convex rationally independent system of shifts</i> | 23 | 1 |
| Algebras generated by weighted shift operators, and pseudodifferential operators with a shift | 23 | 159 |
| Antonjan, S. A. and Smirnov, Ju. M. <i>Universal objects and compact extensions for topological transformation groups</i> | 23 | 279 |
| Anulova, S. V. <i>Diffusion processes: discontinuous coefficients, degenerate diffusion, randomized drift</i> | 24 | 356 |
| Arak, T. V. <i>A new estimate of the rate of convergence in Kolmogorov's uniform limit theorem</i> | 23 | 97 |
| Arakeljan, N. U. and Avetisjan, R. A. <i>On the best uniform approximation by meromorphic functions on the real axis</i> | 23 | 433 |

| | | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|----|-----|
| Arhangel'skii, A. V. <i>Any topological group is a factor group of a zero-dimensional topological group</i> | 23 | 615 |
| Arhipov, G. I. <i>On the value of the singular series in the Hilbert-Kamke problem</i> | 24 | 49 |
| Arutjunov, A. V. and Tynjanskii, N. T. <i>On second order conditions in a time-optimal problem</i> | 24 | 525 |
| Ašurov, R. R. <i>On conditions for localization of spectral resolutions corresponding to elliptic operators with constant coefficients</i> | 23 | 437 |
| Ašurov, R. R. and Pulatov, A. K. <i>Asymptotics of the spectral function of an elliptic operator with constant coefficients</i> | 23 | 101 |
| Avdeev, F. S. <i>On multidimensional series of functions</i> | 24 | 352 |
| Avetisjan, R. A. See Arakeljan, N. U. | | |
| Azarin, V. S. and Giner, V. B. <i>On the structure of cluster sets of entire and subharmonic functions</i> | 24 | 142 |
| Azimov, A. Ja. <i>Smooth-convex vector optimization problems</i> | 23 | 154 |
| Badaljan, G. V. <i>On a criterion for the uniqueness of infinitely differentiable functions determined by the moments of their successive derivatives</i> | 24 | 52 |
| Bahvalov, N. S., Berezin, B. I. and Bessonov, Ju. L. <i>Interpolation theorems for operators admitting estimates in terms of derivatives</i> | 23 | 162 |
| Bakaev, N. Ju. <i>Operator semigroups and differential equations in Banach space</i> | 23 | 535 |
| Bazarbekov, A. B. and Kal'menov, T. Š. <i>A criterion for strong solvability of the Tricomi problem for the Lavrent'ev-Bicadze equation</i> | 24 | 434 |
| Bentkus, R. Ju. and Kazbaras, A. R. <i>On optimal statistical estimators of a distribution density</i> | 23 | 487 |
| Berestova, N. A. <i>On large deviations for branching processes on a finite time interval</i> | 24 | 668 |
| Berestovskii, V. N. <i>On spaces with bounded curvature</i> | 23 | 491 |
| Berezin, B. I. See Bahvalov, N. S. | | |
| Berlin, P. E. <i>On the problem of diffraction by a thin screen</i> | 24 | 6 |
| Bessonov, Ju. L. See Bahvalov, N. S. | | |
| Bezmenov, I. V. See Rusanov, V. V. | | |
| Bicadze, A. V. <i>On exact solutions of a class of systems of quasilinear partial differential equations</i> | 23 | 319 |
| Birjukov, P. A. <i>Ranks of families of sets and properties of topological spaces</i> | 23 | 315 |
| Bočarov, A. V. <i>Spencer cohomology of an algebraic curve, with coefficients in a normalization</i> | 24 | 629 |
| Borisenko, A. A. <i>Extrinsically geometric, topological properties of parabolic and saddle surfaces of rank one in symmetric spaces</i> | 23 | 323 |
| Bratus', A. S. <i>Asymptotic solutions in problems of the optimal control of the coefficients of elliptic operators</i> | 24 | 145 |
| Bronštein, I. U. <i>Transversality implies structural stability</i> | 23 | 251 |
| Brudnyi, Ju. A. and Krugljak, N. Ja. <i>Real interpolation functors</i> | 23 | 5 |

| | | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|-----|
| Buhgeim, A. L. and Klibanov, M. V. <i>Global uniqueness of a class of multidimensional inverse problems</i> | 24 | 244 |
| Buhvalov, A. V. <i>The complex method of interpolation in spaces of vector-valued functions, and generalized Besov spaces</i> | 24 | 239 |
| Bujalo, S. V. <i>Stability of the topology of hyperbolic space forms under variation of the curvature</i> | 23 | 138 |
| Bulavskii, V. A. <i>Quasilinear programming and vector optimization</i> | 23 | 328 |
| Čahkiev, M. A. <i>Exponential polynomials deviating least from zero and optimal quadrature formulas</i> | 24 | 443 |
| Čencova, N. N. <i>A natural invariant measure on Smale's horseshoe</i> | 23 | 87 |
| Čeresiz, V. M. See Gorban', A. N. | | |
| Čerkasov, I. D. <i>Wienerization of diffusion processes</i> | 23 | 134 |
| Černikov, N. S. <i>Factorable locally graded groups</i> | 24 | 312 |
| Černikov, S. N. <i>On the minimal condition for subgroups</i> | 24 | 282 |
| Černyšov, K. I. See Krein, S. G. | | |
| Čikrii, A. A. See Pšeničnyi, B. N. | | |
| Čilin, V. I. <i>Baer ordered *-algebras</i> | 23 | 648 |
| Cistjakov, S. V. <i>On coalition-free differential games</i> | 24 | 166 |
| Cvancig, Z. [Zwanzig]. See Ivanov, A. V. | | |
| Danilenko, I. F. <i>Topologization with respect to the uniform completion of an ordered vector space and some applications of it</i> | 23 | 110 |
| Danilin, Ju. M. <i>Newton's method with step control for degenerate minimization problems</i> | 24 | 101 |
| Dautov, Š. A. <i>On absolute convergence of the series of Taylor coefficients of a rational function of two variables. Stability of two-dimensional recursive digital filters</i> | 23 | 448 |
| Denisov, V. N. <i>On the question of necessary conditions for stabilization of the solution of the Cauchy problem for the heat equation in the whole space E^n and on any compact subset</i> | 24 | 320 |
| Derevcov, E. Ju. See Lavrent'ev, M. M. | | |
| Derr, V. Ja. <i>A criterion for nonoscillation of the solutions of a homogeneous equation relative to a system of functionals</i> | 24 | 368 |
| Dmitriev, A. A. and Semenov, E. M. <i>Optimality of M. Riesz's interpolation theorem in the upper triangle</i> | 23 | 664 |
| Dmitriev, V. I. <i>On interpolation of operators in L_p-spaces</i> | 24 | 373 |
| Drinfel'd, V. G. and Sokolov, V. V. <i>Equations of Korteweg-de Vries type and simple Lie algebras</i> | 23 | 457 |
| Drožžinov, Ju. N. <i>A multidimensional Tauberian theorem for holomorphic functions with nonnegative imaginary part</i> | 23 | 545 |
| Dubinskii, Ju. A. <i>On a method of solving partial differential equations</i> | 23 | 583 |
| <i>On the theory of the Cauchy problem for partial differential equations</i> | 24 | 133 |

| | | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|-----|
| Dudnikov, P. I. and Samborskii, S. N. <i>On Noether boundary value problems for overdetermined systems of partial differential equations</i> | 23 | 508 |
| Džafarov, V. Ja. and Subbotin, A. I. <i>The program maximin and the value of a positional differential game</i> | 23 | 452 |
| Džavadov, M. G. and Guseinov, G. M. <i>On a boundary value problem for a parabolic equation with a small parameter</i> | 23 | 504 |
| Džavadov, R. M. <i>On ϵ-completeness of sets of functions in the algebra of logic</i> | 23 | 147 |
| Džrbašjan, A. M. <i>Factorization of some general classes of functions meromorphic in a half-plane</i> | 23 | 215 |
| <i>Factorization of analytic functions of arbitrary finite order in a half-plane</i> | 23 | 289 |
| Džrbašjan, M. M. <i>The basis property of biorthogonal systems generated by boundary-value problems for differential operators of fractional order</i> | 24 | 650 |
| Džumadil'daev, A. S. <i>Relative cohomology and deformations of Lie algebras of Cartan type</i> | 23 | 398 |
| Džuraev, A. <i>On the formulation of boundary value problems for nonclassical systems</i> | 23 | 658 |
| Egoryčev, G. P. <i>Solution of the van der Waerden problem for permanents</i> | 23 | 619 |
| Eremin, I. I. <i>Duality for improper problems of linear and convex programming</i> | 23 | 62 |
| Eršov, Ju. L. <i>On elementary theories of regularly closed fields</i> | 23 | 259 |
| <i>Eliminability of quantifiers in regularly closed fields</i> | 23 | 463 |
| Faminskaja, M. F. See Vasil'eva, A. B. | | |
| Faminskii, A. V. See Kružkov, S. N. | | |
| Farber, M. S. <i>Stable classification of knots</i> | 23 | 685 |
| Filippov, V. T. <i>On chains of varieties generated by free Mal'cev and alternative algebras</i> | 24 | 411 |
| Finin, G. S. See Valeev, K. G. | | |
| Fomin, V. M. See Ruev, G. A. | | |
| Freivald, R. V. <i>Two-way finite probabilistic automata and tape-bounded Turing machines</i> | 23 | 198 |
| Frolov, N. N. <i>Fundamental solutions of infinite-dimensional differential equations with constant coefficients</i> | 24 | 660 |
| Gabasov, R., Kirillova, F. M. and Rakeckii, V. M. <i>On methods for solving the general problem of convex quadratic programming</i> | 23 | 653 |
| Gafurov, M. U. and Slastinikov, A. D. <i>On the distribution of the last exit time, the excess and number of exits of a random walk beyond a curvilinear boundary</i> | 23 | 285 |
| Ganža, V. G., Meleško, S. V., Murzin, F. A., Šapeev, V. P. and Janenko, N. N. <i>Realization on a computer of an algorithm for studying the consistency of systems of partial differential equations</i> | 24 | 638 |
| Gavrilenko, Ju. V. <i>Recursive realizability from the intuitionistic point of view</i> | 23 | 9 |
| Giner, V. B. See Azarin, V. S. | | |

| | | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------|----|-----|
| Gluskin, E. D. <i>Finite-dimensional analogues of spaces without a basis</i> | 24 | 641 |
| Gol'dštein, V. M. <i>Extension of functions with first generalized derivatives from plane domains</i> | 23 | 255 |
| Golovin, V. D. <i>A relative variant of the Oka-Cartan-Serre theory</i> | 24 | 206 |
| Goncarov, S. S. <i>Groups with a finite number of constructivizations</i> | 23 | 58 |
| Goppa, V. D. <i>Codes on algebraic curves</i> | 24 | 170 |
| Gorbačuk, M. L. See Gorbačuk, V. I. | | |
| Gorbačuk, V. I. and Gorbačuk, M. L. <i>Trigonometric series and generalized periodic functions</i> | 23 | 342 |
| Gorban', A. N. and Čeresiz, V. M. <i>Slow relaxations of dynamical systems and bifurcations of ω-limit sets</i> | 24 | 645 |
| Gordienko, E. I. <i>Adaptive optimal control of certain Markov processes</i> | 24 | 492 |
| Gordon, E. I. <i>K-spaces in Boolean-valued models of set theory</i> | 23 | 579 |
| Gordon, E. I. and Ljubeckii, V. A. <i>Some applications of nonstandard analysis in the theory of Boolean-valued measures</i> | 23 | 142 |
| Grigorenko, N. L. <i>On a linear problem of pursuit by several objects</i> | 23 | 499 |
| Grigor'ev, D. Ju. <i>An analogue of the Bruhat decomposition for the closure of a cone of a Chevalley group of the classical series</i> | 23 | 393 |
| Guran, I. I. <i>On topological groups close to being Lindelöf</i> | 23 | 173 |
| Gusarov, A. L. <i>On the asymptotic behavior of the solutions of a parabolic equation in a strip</i> | 23 | 211 |
| Guseinov, G. M. See Džavadov, M. G. | | |
| Habibullin, I. T. See Novokšenov, V. Ju. | | |
| Hasan, Abdu Al'-Rahman. <i>On cluster sets along arbitrary boundary paths</i> | 24 | 316 |
| Has'minskii, R. Z. See Ibragimov, I. A. | | |
| Henkin, G. M. (see also Airapetjan, R. A.) | | |
| Henkin, G. M. <i>Representation of solutions of the 4-equation in the form of holomorphic vector bundles over twistor space</i> | 24 | 415 |
| Himčenko, B. N. See Kamynin, L. I. | | |
| Himaladze, È. V. See Mnacakanov, R. M. | | |
| Hohlov, Ju. S. <i>A local limit theorem for composition of random motions of a Euclidean space</i> | 24 | 277 |
| Hol'kin, A. M. See Rofe-Beketov, F. S. | | |
| Ibragimov, I. A. and Has'minskii, R. Z. <i>On some problems of nonparametric estimation of the value of a linear functional</i> | 23 | 115 |
| Ibragimov, I. A. and Radavičius, M. È. [Radavičius, M. E.]. <i>On probabilities of large deviations for maximum likelihood estimators</i> | 23 | 403 |
| Il'in, V. V. <i>On the quantitative stability of Cramér's theorem in the uniform metric in the case of identically distributed random variables</i> | 24 | 290 |
| Iosif'jan, G. A. See Oleinik, O. A. | | |

| | | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|-----|
| Isaev, G. A. <i>Expansion in eigenfunctions of selfadjoint singular multiparameter differential operators</i> | 24 | 326 |
| On the theory of defect indices for multiparameter differential operators of Sturm-Liouville type..... | 24 | 580 |
| Isaev, V. K. <i>The Pontrjagin maximum principle and II-splines</i> | 23 | 15 |
| Its, A. R. <i>Asymptotics of solutions of the nonlinear Schrödinger equation and isomonodromic deformations of systems of linear differential equations</i> | 24 | 452 |
| Ivanov, A. V. <i>Superextensions of openly generated compact Hausdorff spaces</i> | 24 | 60 |
| Ivanov, A. V. and Cvancig, Z. [Zwanzig]. <i>An asymptotic expansion for the distribution of the least squares estimator of a vector parameter in nonlinear regression</i> | 23 | 118 |
| Ivanov, L. A. (see also Kiprijanov, I. A.) | | |
| <i>On Kirchhoff's formulas in symmetric spaces of rank 1</i> | 24 | 323 |
| Ivanov, V. I. <i>Representation of measurable functions by multiple trigonometric series</i> | 24 | 65 |
| Ivanov, V. K. <i>On the multiplication of homogeneous generalized functions of several variables</i> | 23 | 224 |
| Ivrī, V. Ja. <i>Asymptotics of the eigenvalues for some elliptic operators acting in bundles over a manifold with boundary</i> | 23 | 623 |
| Jakubov, S. Ja. and Aliev, B. A. <i>The Fredholm property of a boundary value problem, with an operator in the boundary conditions, for an elliptic differential operator equation of second order</i> | 23 | 429 |
| Jakubovič, A. M. <i>On the consistency of the theory of types with the axiom of choice relative to the theory of types</i> | 24 | 621 |
| Janenko, N. N. See Ganža, V. G., Ruev, G. A. and Vorozcov, E. V. | | |
| Janušauskas, A. I. <i>On the well-posed property of boundary value problems for multidimensional equations of mixed type</i> | 23 | 381 |
| Jurinskii, V. V. <i>An error estimate for the normal approximation of the probability of landing in a ball</i> | 23 | 576 |
| Jušmanov, S. V. <i>Reconstruction of an arbitrary graph from a certain subset of rows and columns of its distance matrix</i> | 24 | 45 |
| Kagan, G. M. <i>On a class of singular problems satisfying Huygens' principle</i> | 23 | 176 |
| Kal'menov, T. Š. See Bazarbekov, A. B. | | |
| Kamynin, L. I. and Himčenko, B. N. <i>On the anisotropic strict extremum principle for a second order elliptic-parabolic equation</i> | 23 | 513 |
| Kanev, V. I. <i>The Prym map is a birational imbedding</i> | 24 | 533 |
| Kaniovskii, Ju. M. <i>A limit theorem for stochastic optimization processes and estimation with a constant step</i> | 24 | 457 |
| Kanoveli, V. G. <i>On uncountable sequences of sets given by the sieve operation</i> | 23 | 352 |
| Kanoveli, V. G. and Ostrovskii, A. V. <i>On non-Borel F_{II}-sets</i> | 24 | 386 |
| Kaplan, A. A. <i>On an approach to the solution of convex programming problems</i> | 23 | 588 |

| | | | |
|-----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|-----|
| 6 | Kaplunovič, G. Ja. <i>The existence of a convex surface with given integral curvature in elliptic space and the solvability of Monge-Ampère equations</i> | 23 | 407 |
| 30 | Karacuba, A. A. <i>On a problem with prime numbers</i> | 24 | 173 |
| 15 | Karasev, M. V. and Maslov, V. P. <i>Global asymptotic operators of the regular representation</i> | 23 | 228 |
| 52 | Karol', A. I. <i>On the ζ-function of a degenerate elliptic Dirichlet problem</i> | 24 | 209 |
| 60 | Katrahov, V. V. <i>On a boundary value problem for the Poisson equation</i> | 24 | 152 |
| 118 | Kazarin, L. S. <i>On groups with factorization</i> | 23 | 19 |
| 323 | Kazarnovskii, B. Ja. <i>On the zeros of exponential sums</i> | 23 | 347 |
| 65 | Kazbaras, A. R. See Bentkus, R. Ju. | | |
| 224 | Kerov, S. V. See Veršik, A. M. | | |
| 623 | Kiprijanov, I. A. and Ivanov, L. A. <i>The Euler-Poisson-Darboux equation in a Riemannian space</i> | 24 | 331 |
| 429 | Kiričenko, V. F. <i>Almost Hermitian manifolds of constant type</i> | 24 | 176 |
| 621 | <i>The axiom of holomorphic planes in generalized Hermitian geometry</i> | 24 | 336 |
| 576 | Kirillova, F. M. See Gabasov, R. | | |
| 381 | Kleīman, Ju. G. <i>On some questions in the theory of varieties of groups</i> | 23 | 411 |
| 45 | Klibanov, M. V. See Buhgeim, A. L. | | |
| 176 | Kljačko, A. A. <i>Models for complex representations of the groups $GL(n, q)$ and Weyl groups</i> | 24 | 496 |
| 3 | Knopov, P. S. <i>On weak convergence of measures generated by iterative procedures in a Hilbert space</i> | 23 | 23 |
| 513 | Kobel'skii, V. L. <i>Modules of two-component codimension two links</i> | 24 | 390 |
| 4 | Koldunov, A. V. See Veksler, A. I. | | |
| 352 | Komeč, A. I. See Višik, M. I. | | |
| 4 | Konjagin, S. V. <i>Connectedness of sets in best approximation problems</i> | 24 | 460 |
| 386 | Kostrikin, A. I., Kostrikin, I. A. and Ufnarovskii, V. A. <i>Orthogonal decompositions of simple Lie algebras</i> | 24 | 292 |
| 3 | Kostrikin, I. A. See Kostrikin, A. I. | | |
| 45 | Kozlov, S. M. See Žikov, V. W. | | |
| 176 | Kozlovskii, V. A. <i>On the recognition of an automaton relative to a locally generated class</i> | 23 | 626 |
| 3 | Krasovskii, A. N. <i>On a formalization of the positional differential game</i> | 23 | 357 |
| 4 | Krasovskii, N. N. and Tret'jakov, V. E. <i>Stochastic program synthesis for a positional differential game</i> | 24 | 17 |
| 4 | Krein, M. G. and Langer, G. K. <i>Continuous analogues of orthogonal polynomials with respect to an indefinite weight on the unit circle, and extension problems associated with them</i> | 23 | 553 |
| 3 | Krein, S. G. and Černyšov, K. I. <i>The behavior of solutions of general linear systems meromorphically depending on a small parameter</i> | 24 | 297 |
| 3 | 588 | | |

| | | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|-----|
| Krivov, V. V. <i>On an extremal differential form for the generalized modulus</i> | 23 | 362 |
| Krotov, V. G. <i>On the differentiability of functions in L^p and H^p for $0 < p < 1$</i> | 23 | 180 |
| Krugljak, N. Ja. See Brudnyi, Ju. A. | | |
| Kruškal', S. L. <i>Invariant metrics and quasiconformal mappings</i> | 23 | 518 |
| Kružkov, S. N. and Faminskii, A. V. <i>Generalized solutions of the Korteweg-de Vries equation</i> | 24 | 676 |
| Kučment, P. A. <i>On Floquet theory for parabolic and elliptic boundary value problems in a cylinder</i> | 23 | 522 |
| Representations of solutions of invariant differential equations on certain symmetric spaces..... | 24 | 104 |
| Kudrijavcev, V. B. <i>On completeness for function systems</i> | 23 | 263 |
| Kumar, Pal Pradip. See Maslenikova, V. N. | | |
| Kušner, B. A. <i>On some topological properties of constructive plane curves</i> | 24 | 258 |
| Kusraev, A. G. <i>On a general method of subdifferentiation</i> | 23 | 367 |
| Kuzičev, A. S. <i>Arithmetical theories constructed on the basis of λ-conversion</i> | 24 | 584 |
| Langer, G. K. See Krein, M. G. | | |
| Lapin, S. V. <i>Relations between the moduli of continuity of functions in different symmetric spaces, and some imbedding theorems</i> | 23 | 416 |
| Lavrent'ev, M. M., Derevcov, E. Ju. and Šarafutdinov, V. F. <i>On the determination of an optical body in a homogeneous medium from its images</i> | 24 | 342 |
| Lavrov, A. M. <i>Ill-posed Cauchy problems and a uniqueness theorem for partial differential equations</i> | 23 | 526 |
| Lazarov, R. D. <i>On the convergence of difference schemes for some axially symmetric problems of mathematical physics in classes of generalized solutions</i> ... | 23 | 667 |
| Lazarov, R. D. and Makarov, V. L. <i>Convergence of a difference method and the method of lines for multidimensional problems of mathematical physics in classes of generalized solutions</i> | 24 | 69 |
| Lazarov, R. D. and Mokin, Ju. I. <i>On the convergence of difference schemes for Poisson equations in L_p-metrics</i> | 24 | 590 |
| Lažetić, N. [Lažetić]. <i>Estimates of the eigenfunctions and associated functions of a Sturm-Liouville operator with discontinuous coefficients</i> | 23 | 558 |
| On the derivatives of partial sums of expansions in eigenfunctions and associated functions of nonselfadjoint operators of Sturm-Liouville type..... | 24 | 212 |
| Le Suan Kan. <i>Quasiperiodic oscillations in quasilinear autonomous systems with delay</i> | 23 | 233 |
| Lebedev, V. A. <i>Some spectral properties of Sobolev elliptic problems</i> | 23 | 671 |
| Leont'ev, V. K. <i>On relations of trajectory lengths in combinatorial choice problems</i> | 23 | 629 |
| Levendorskii, S. Z. <i>Quasiclassical asymptotics of the eigenvalues of systems of pseudodifferential operators</i> | 23 | 27 |

| | | |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|-----|
| Levin, V. L. <i>Some applications of duality for the problem of translocation of masses with a lower semicontinuous cost function. Closed preferences and Choquet theory</i> | 24 | 262 |
| Liskovets, O. A. <i>On the Maslov-Morozov property in the method of regularization for nonlinear equations of the first kind</i> | 23 | 561 |
| Litvinov, G. L. (see also Vainerman, L. I.) | | |
| Litvinov, G. L. and Lomonosov, V. I. <i>Density theorems in locally convex spaces and irreducible representations</i> | 23 | 372 |
| Lizorkin, P. I. and Nikol'skii, S. M. <i>An elliptic equation with degeneracy. A variational method</i> | 23 | 237 |
| <i>Elliptic equations with degeneracy. Differential properties of solutions</i> | 23 | 268 |
| <i>Coercive properties of an elliptic equation with degeneracy (the case of generalized solutions)</i> | 24 | 21 |
| Ljubeckii, V. A. See Gordon, E. I. | | |
| Ljubiškin, V. A. See Sadovničii, V. A. | | |
